

Retaind.ai Executive Overview

Platform: Retaind.ai Type: AI-powered B2B SaaS for behavioral assessment in recruitment Purpose: Enables multi-stakeholder benchmarking to identify the ideal candidate fit

User Roles & Permissions

Role	Description	Capabilities
Recruiter Admin	Platform administrator	Full access: user management, branding, campaigns
Client Master	Senior client stakeholder	Manage campaigns, invite team members, approve benchmarks
Client Participant	Team member	Complete assessments, view assigned campaigns
Client View Only	Read-only access	View campaigns and results (no editing)
Candidate	Job applicant	Complete assessments, view own results

Core Workflows

1. Campaign Creation (5-Step Wizard)

Step 1: Basic Details - Enter company name & job title - Optional campaign template selection

Step 2: Job Description - Upload job spec (PDF/DOCX) for AI extraction or enter manually - AI generates job advert & campaign brochure

Step 3: Behavioral Dimensions - Define 8 dimensions to assess - Use default template or customize - Each dimension rated 1-8

Step 4: Team Invitation - Invite stakeholders, assign roles & permissions - Send email invitations

Step 5: Review & Launch - Review settings and activate campaign for stakeholder assessments

1. Stakeholder Benchmarking Workflow

Flow: Invite Stakeholders → Complete Assessment → Calculate Benchmark → Detect Conflicts → Sign-Off → Approve/Reject → Campaign Active

Key Features: - Auto-save: Progress saved automatically - Conflict Detection: Highlights disagreements between stakeholders - Consensus Metrics: Strong / Moderate / Needs Discussion - Auto-Approval: Strong consensus triggers automatic approval - Sign-Off Gate: Client Master reviews benchmark for final approval

1. Candidate Assessment Workflow

Flow: Invite Candidate → CV Upload & AI Screening → Questionnaire → Optional Video Interview → AI Analysis → Fit Index → Interview Questions → Shortlist Decision

Candidate Features: - CV Upload: AI extracts & screens qualifications - Behavioral Questionnaire: Matches stakeholder benchmark dimensions - Video Interview: Optional AI analysis - Fit Index: 0–100% alignment with benchmark - Shortlisting: Shortlist / Reject / Under Review - Candidate Notes & Action Items

1. AI-Powered Features

Feature	Description
CV Screening	AI analyzes skills & experience
Job Advert Generation	Creates professional postings
Campaign Brochure	Generates recruitment marketing content
Interview Questions	Targets candidate-benchmark misalignments
Video Analysis	Transcription & behavioral insights, tone, confidence, keywords

1. Reporting & Visualizations

Charts & Metrics: - Radar Chart: Benchmark vs candidate overlay - PRISM Chart: 2D quadrant (Drive vs Structure) - Dimension Heatmap: Color-coded alignment - Fit Index with traffic lights - Quadrant Affinity Analysis - Multi-Candidate Comparison

Report Features: - Analyst Mode: Detailed psychometric view - PDF Export: Individual candidate reports

1. Dashboard & Analytics

Overview Metrics: - Active campaigns, total candidates, completed assessments, conflicts detected, average fit index

Trend Visualizations: - Candidate pipeline, Fit Index trend, pipeline by status, shortlist distribution

Performance Metrics: - Conversion rate, average completion time, benchmark consensus rate

Recent Activity Feed & Quick Actions

1. Data Export

2. CSV: Candidates, benchmarks, assessments

3. PDF: Individual candidate reports

4. Filtered exports: By status/date range

5. Administration Features

User Management: - Create/edit/delete users - Role assignment (5 roles) - Team member invitations with secure SHA-256 tokens - User activity tracking

White-Label Branding: - Custom logo, brand colors (primary/secondary/accent), custom domain, email branding

Security Features: - Replit Auth (OpenID Connect) - Two-Factor Authentication (TOTP) - Backup codes - Role-based access control - Audit logging

Privacy & Compliance: - GDPR consent tracking, privacy policy versioning, data deletion requests, consent records with timestamps

Email Notifications: - Stakeholder invitations, candidate invitations, assessment reminders, benchmark ready notifications, sign-off notifications

Integrations: - ATS/CRM webhook endpoints, job board posting (LinkedIn, Indeed), object storage for documents

Mobile & UX Features: - Responsive design, dark mode support, device handoff via QR code, auto-save functionality, loading states and skeleton UI

Features & Functionality Summary

Campaign Management - Create recruitment campaigns with 5-step wizard - Upload job specifications (PDF/DOCX) - AI-generated job adverts and campaign brochures - Campaign templates for quick setup - Campaign status tracking (draft/benchmarking/active/completed) - Duplicate campaigns

Stakeholder Benchmarking - Invite stakeholders via email - 8-dimension behavioral assessment - Auto-save during assessment - Benchmark calculation from stakeholder ratings - Conflict detection between stakeholders - Consensus indicators (Strong/Moderate/Needs Discussion) - Benchmark sign-off workflow (approve/reject) - Auto-approval for strong consensus

Candidate Management - Add candidates manually or via CV upload - Bulk candidate import - AI-powered CV screening and scoring - Candidate invitation emails - Behavioral questionnaire assessment - Video interview recording (optional) - AI video analysis (tone, confidence, keywords) - Fit Index calculation (0-100%) - Candidate shortlisting (shortlist/reject/under review) - Candidate notes and action items

AI-Powered Features - CV text extraction and analysis - Job advert generation - Campaign brochure generation - Interview question generation (based on misalignment) - Video interview transcription - Behavioral analysis from video

Reporting & Visualization - Radar charts (benchmark vs candidate) - PRISM 2D quadrant charts - Dimension heatmaps - Fit Index display with traffic lights - Quadrant affinity analysis - Multi-candidate comparison - PDF report generation - Analyst Mode toggle for detailed data

Dashboard & Analytics - Overview metrics (campaigns, candidates, assessments) - Candidate pipeline trend charts - Fit Index trend over time - Pipeline status distribution - Shortlist distribution charts - Performance metrics (conversion rate, time to complete) - Recent activity feed - Quick actions

Data Export - CSV export (candidates, benchmarks) - PDF candidate reports - Filtered exports by status/date

User Management - Create/edit/delete users - Role assignment (5 roles) - Team member invitations - Secure invitation tokens (SHA-256) - User activity tracking

White-Label Branding - Custom company logo - Brand colors (primary/secondary/accent) - Custom domain configuration - Email branding (from name, footer)

Security - Replit Auth (OpenID Connect) - Two-Factor Authentication (2FA) - TOTP verification - Backup codes - Role-based access control - Audit logging

Privacy & Compliance - GDPR consent tracking - Privacy policy versioning - Data deletion requests - Consent records with timestamps

Email Notifications - Stakeholder invitations - Candidate invitations - Assessment reminders (automated) - Benchmark ready notifications - Sign-off notifications

Integrations - ATS/CRM webhook endpoints - Job board posting (LinkedIn, Indeed) - Object storage for documents

Mobile & UX - Responsive design - Dark mode support - Device handoff (QR code) - Auto-save functionality - Loading states and skeleton UI
